

# Print When and Where you Want

# Fuji Xerox Printers brings you a diverse range of mobile solutions in the latest range of printers.

In today's mobile world the internet is a significant part of everyday life, both at home and at work. The way we use and access the internet has changed dramatically over the last 20 years. We are well and truly in the mobile age living in an always on, need it now era.

Connecting wirelessly and working on the go doesn't stop when it comes to printing.

## Print when and where you want

Wireless printing means you can print from an electronic device without physically having to connect a wire to the printer. They are easy to share, so several people can connect at one time; and with no wires, the printer can live just about anywhere you wish.

Many of the printers now launched by Fuji Xerox Printers include mobile solutions as a standard feature. These solutions include;

## Print & Scan Utility App

Enables users to print directly from iOS or Android devices.

Whether it's an iOS or Android device, the Fuji Xerox Print & Scan Utility puts mobile printing and scanning convenience at your fingertips. Allowing you to print stored photo albums, web pages or shoot and print on the go from your iOS or Android device.

### Free App Download

## AirPrint

In iOS, Airprint-enabled applications can print to an AirPrint-enabled printer and you don't need to install a driver or configure the printer queue.

1. Choose print,
2. Select an AirPrint-enabled printer,
3. Print. It's that simple.

## Google Cloud Print

In the world of Google Cloud Print, you can print anything, from any device, to any cloud-connected printer.

When you print through Google Cloud Print, your file is securely sent to your printer over the web. Because it's the web, Google Cloud Print works whether you're in the same room as your printer, or on another continent. It also doesn't matter whether you're on a phone, a traditional desktop, or anything in between (like a tablet).
